SERMON RECAP

Music is one of God's special creations. It has the ability to interact with our emotions and soul. When David played his harp in 1 Samuel 16, the evil spirit left King Saul.

All churches throughout history have used music in its many forms in their worship services.

Music combined with words become songs. The apostle Paul encouraged the singing of songs because:

1. Songs are one of the most effective ways to teach doctrine
2. Singing songs engages our whole being to worship God
3. Our God is a singing God.

Jesus sang. He sang the Hallel prayers before going to the garden and the cross. We look forward to the day when we will experience worship in heaven when we will hear God sing over us and all creation once

again. In the meantime, let us follow Jesus' example in worshipping God through music and song.

SHARING

- After listening to the message, do you view our times of worship in church differently now? Why? Please share.
- Please share one favourite Christian hymn or song of yours and why is it your favourite?
- How should we approach our times of worship in church henceforth?

PRAY:

- Encourage one another to grow deeper in having a heart of worship. Partner with another cell member and pray together.
